Introducing!

integrator

Integrator KPOS 1530

Integrates smoothly with your Point of Sale System and Cash Register.

Advantages:

Integration made easy

✓ Connects with MOST major POS systems and cash registers via USB and RS232

OPOS driver available

✓ Simplified set-up... reduced costs

Place it where you need it

✓ Sleek low profile facilitates placement on or in crowded counters to maximize space

It is a Government requirement that the scale be certified legal for trade when the scale is used to determine pricing in a transaction between the trader and the customer.

In the restaurant and food equipment market, scales are often used to ensure consistency in weight for products sold or used in the preparation of product. Losing even a ½ oz. on each measurement could dramatically increase the cost over time to the manufacturer, baker, distributor, vendor, restaurant, etc…

Legal for Trade scales go through a thorough quality inspection, ensuring reliability – you are guaranteed a quality product and peace of mind.

Fair trade for both customer and retailer

Scale Features:

✓ Interfaces with nearly all POS systems

✓ Optional external remote tower display

✓ Easy to use navigation keys for: power, zero and print

✓ Bright, easy to read LCD display with blue backlight

✓ Sleek low profile facilitates placement on or in crowded counters to maximize space

✓ Rugged construction with heavy-duty cast Aluminum X support

✓ Stainless steel platter for quick and easy cleaning
